

Stanfax 1061

Alkyl Sulfate

Stanfax 1061 is a high-quality ammonium decyl sulfate, with properties similar to lauryl sulfates.

Features include:

- High foam generation, similar to ammonium lauryl sulfate.
- Low solution viscosity.
- Low cloud point.
- Good salt and electrolyte tolerance.
- Excellent compatibility with other anionic, amphoteric, and non-ionic surfactants.

Stanfax 1061 can be used as a:

- General foaming/wetting surfactant in industrial, upholstery, textile coatings.
- Mild cleaner in industrial cleaning applications.
- Upholstery cleaner.
- Dust suppression agent.
- Primary or co-polymerization emulsifier.
