

Stanfax 700

Amphoteric

Stanfax 700 is a high-quality amphoteric surfactant with a broad array of useful, practical functions and applications.

Stanfax 700 offers the following features:

- Water solubility and stability in acid, neutral, and alkaline pH environments
- Broad compatibility with many standard cationic, nonionic, and anionic surfactants
- Maintains properties well in hard water or high electrolyte conditions
- Can function as a hydrotrope in formulations eliminating need for solvents.
- Exhibits corrosion inhibition activity
- Effective detergency, wetting properties demonstrated via strong cleaning, foaming, and emulsification performance.
- Used in cationic surfactant systems designed as germicidal and disinfectant agents.

Stanfax 700 applications include use in:

- All purpose liquid cleaners
- Germicidal cleaning solutions
- Foam stabilization applications
- Hard surface cleaners
- Acid cleaners
- Alkaline soak cleaners

Tiarco-RST

Rheology and Surfactant Technologies

Technical Data

Stanfax 700 is manufactured at our Dalton, GA facility using Tiarco-RST's Quality Assurance process, with continual improvement as its goal.

Chemical name: Sodium N-lauryl- β -iminodipropionate. CAS Number: 14960-06-6.

INCI/CTFA designation: Sodium Laurimino-dipropionate.

SPECIFICATIONS

Appearance:	Clear, yellow thin liquid
Activity (%):	30.0 \pm 1.0
Weight /Gallon:	8.6 lbs/gal
pH:	7.25 \pm 0.75
	112514v1RWS

Stanfax 700 is available in drum, tote bin, and tank truck quantities.
