

Stanfax 1086

Sodium Lauryl Sulfate

Tiarco-RST

Rheology and Surfactant Technologies

Technical Data

Stanfax 1086 is a sodium lauryl sulfate for the personal care and textile industry. **Stanfax 1086** offers the following properties:

- High Foam
- High Viscosity

Stanfax 1086 is a superb foam generator, producing dense stable foam in both hard and soft water. Higher viscosity products can be achieved with less salt addition due to the higher inorganic salt and free oils inherent in **Stanfax 1086**. With a proper selection of amphoteric and alkanolamides superb foaming characteristics can be achieved.

Typical applications for **Stanfax 1086** are as follows:

- High Viscosity Shampoos
- Industrial Cleaners
- Upholstery Cleaners
- Household Cleaners
- Liquid Dishwash
- Rug Cleaners

Stanfax 1086 is manufactured at our Dalton, GA, facility using Tiarco-RST's Quality Assurance process, with continual improvement as its goal.

SPECIFICATIONS

Appearance:	Thick white paste
Activity:	29.0 +/- 1.0 %
pH (10 % Solution):	8.0 +/- 0.5
Weight/Gallon:	8.5 lbs/gal
Viscosity (cps):	25000-60000

Stanfax 1086 is available in drum, tote, and tank truck quantities.
