

Stanfax 336

Alpha Olefin Sulfonate

Tiarco-RST

Rheology and Surfactant Technologies

Technical Data

Stanfax 336 is an economical, high activity Alpha Olefin Sulfonate Anionic surfactant well suited for personal care and multipurpose cleaning applications.

Stanfax 336 offers the following features:

- High Foam Volume
- Excellent Detergency
- Mildness to the skin
- Good Emulsification
- Hard Water Tolerance

Stanfax 336 applications include:

- Primary Foamer for low cost Shampoos
- Liquid Hand Soaps
- Mild Industrial Detergents
- Heavy Duty Hand Detergents
- Car Wash
- Shower and Bubble Bath Preparations
- Body Wash

Stanfax 336 is available in drums, tote bins, and tank trucks.

Stanfax 336 is manufactured using Tiarco-RST's Quality Assurance process with continual improvement as its goal.

CTFA Name: Sodium C14-16 Olefin Sulfonate

CAS Number: 68439-57-6

SPECIFICATIONS:

Appearance:	Light Straw-colored liquid
Activity:	39.0 ± 1.0
Color (Klett 5 % Active)	100 Max
pH (10 % Sol.)	8.0 ± 1.0
Sodium Chloride:	1.0 % Max
Sodium Sulfate:	1.6 % Max
Viscosity:	500 cps Max
Weight/Gallon:	8.9 ± 0.2 lbs/gal.
	022520 MO
